MANY FANS URGE BOY SCOUTS WIN BAN ON FREAK PITCHING AT BLISS FIELD

Declare That "Shine Ball" and "Spitter" Should be Legislated Against.

20 TWIRLERS WOULD BE OUT OF JOBS

By KINGSLIDE.

NEW YORK, Nov. 12.—The careers of 20 or more major league pitchers may have by a thread in the rules committee of the two big leagues are perfecting their plans to abolish all such freak deliveries as the spitball and shine ball. This feature of the reform has begun to dawn on the stars and already there is developing an opposition to the change which no certain to be proposed and fought for at the meeting in December.

Whether it is better to have a group of the most celebrated pitchers in the game or to have the sport of the practice which are gradually growing more objectionable is a question causing many wrackings of the brow and scratching of the official long.

Will Hurt Twirlers. To purge the sport of these deliveries is to cut down to less than 25 good pitchers in another.

Without the use of the spitball or the shine ball, the pitcher would be badly handicapped in the matter of a livelihood and the winning of money for the players. American League, Cleveland, Detroit, Boston, Chicago, St. Louis, Philadelphia, Pittsburgh, St. Paul, Washington, Baltimore, New York, and Cincinnati.

It will be noticed that the spitball and shine ball are not mentioned in the list of the National League, and when the official check this year it may have considerable effect on their careers.

Would Depress Baseball. The average fan is not at heart a self-sacrificing hero. He is interested in the game of baseball and the efforts of his favorite pitcher to win. He is not interested in the game of baseball and the efforts of his favorite pitcher to win.

ENGLISH GOLF CRACK AVERAGES 232 YARDS IN SIX LONG DRIVES

NEW YORK, Nov. 12.—More tests of how far a modern golf ball is hit, on the average, by the men who are recognized as long hitters, recently were made at Woodstock park in England.

There was considerable curiosity over the results because of the recent action of the rules of golf committee in passing a resolution expressing its opinion that there should be a minimum limit to the size of the golf ball.

That resolution was not definite action toward a standardizing ball or toward the size of the ball. It was merely an opinion which will be followed up by taking the matter up with the United States Golf Association before anything further is done.

James Reid, George Dawson, Alexander Reid and a professional named Watts were the competing players in the play at Woodstock park. Distances were measured off on six of the 18 holes so that it was an exact matter to measure the drive of the four professionals at three balls.

All four are long hitters, but it was a little unfortunate in view of the interest taken that Dawson was not in his best hitting form.

The highest drive was made by Reid, who hit a ball 232 yards. Reid, always a long hitter, was credited with the longest distances.

BRAD NETA LEGGIST. Reid, always a long hitter, was credited with the longest distances.

MAT I don't assert that a lot of high league nations are clamoring to get into the major league of nations?

MORAN SHOULD WORK. Pat Moran has been well repaid for leading the Cincinnati Reds this year. He received a salary of \$10,000 for the regular season, also a \$10,000 bonus from president Herrmann, \$5000 as his share of the world's series money, and \$1000 in gold from his admirers in Pittsburgh, Mass., where he makes his home.

Moran signed a contract for one year when Moran turned himself in the Reds last spring. He will sign another when he leaves like it, and probably his salary will be more than doubled. It was a good thing for the miracle man when the Phillies let him out a year ago.

LEWIS UNFAIRLY BOOTED. The fact that the average spectator at a wrestling match knows little of the ethics of the sport was again demonstrated in the course of the recent match between Joe Adams and Jimmie Lewis.

STATE MINERS WILL INVADE ARIZONA "U" TERRITORY ON FRIDAY

ARIZONA university will be the next southwestern foe tackled by the Texas State School of Mines in the process of "taking 'em all on."

While a bit discouraged at the failure of some of their trick plays against the New Mexico university students, the miners are far from discouraged and are going about their preliminary work with a spirit that is unshakable. Several new plays have

been introduced in the backfield since the New Mexico game and the students are looking for time in practicing a few different formations from the one they used against the Wildcats from Albuquerque. Little change will be made in the line but it is possible that the backfield may be shifted in such a manner that it will add strength to the team.

One of the biggest surprises of last Saturday's game with the New Mexico boys was the speed of Hankley. Breaking through the opposing defense "kick" gave Hankley a two yard run for his money when the electric little player was heading down the field for a touchdown. He caught Hank in an attempt and would have sent him to the hospital if he had not been so quick to develop his accustomed pay and glory.

The mine players attribute the big score to their failure to get going from the first minute but they are anxious to vindicate themselves and get out a hard battle against the Wildcats.

Captain J. F. McKee of the Arizona university was in the stadium last Saturday afternoon and this may be one reason why the miners did not show several shifts that their supporters knew they had.

Plans are being made by a number of fans to accompany the team on its trip west and they will be on hand to render encouragement during critical moments of the game. If the Wildcats keep the miners from crossing their goal-line it will be accomplished a feat not done before in the history of the sport. They have

surged up and maintained to get at least one tally, anywhere. They scored a touchdown. How?

Against New Mexico. These two teams had not been scored on before they came to El Paso and it is probable that their goal line will be crossed for the remainder of the year.

Following the Friday afternoon battle, the miners will return here and get in shape for the big Thanksgiving day contest with the all star football team at the El Paso stadium.

AKRON, O., WILL ENTER LEAGUE

Takes the Place of Birmingham of the International Circuit.

AKRON, Ohio, which according to David L. Potts, is only 200 miles from Buffalo, is now a member of the International League.

At a special meeting of the Potts organization held at New York recently the franchise of the Birmingham club was sold by the league to a syndicate of Akron, Ohio, business men for \$25,000.

The franchise was returned to the league at the close of the season by George F. Johnson, Johnson also has his players to a syndicate of Akron, Ohio, business men for \$25,000.
